A first-class bookkeeper wanted by an Exporting House in this city. Must be an Englishman. Address A. B. C. Caixa No. 35.

PAYSANDU CRICKET.

NIGGERS vs WHITES.

This match was played at Paysandu on the 29th and 30th June and was left unfinished. The Whites, with two wickets in hand, still required 48 runs to win when stumps were drawn.

Three members of the Santos team, Messrs Miller, Tracey and F. H. Robinson, took part in the match, the São Paulo captain scoring in all 160 for once out.

He batted very well for his runs and his partnership with R. Morrissey, in the Niggers' 1st innings, which yielded 143 runs, constitutes a Rio record.

For the Whites Tate and Pierce played well in the first innings and Jackson saved the situation in the second by his fine unfinished innings of 87.

The wicket on both days greatly favoured the batsmen and so the bowlers met with little success except E. Morrissey who enlivened in all 14 wickets at a cost of only 179 runs, and performed the 'hat-trick' in his first over of the second innings.

We give below full score and analysis:

ABSOLUTELY FLAWLESS

A few words on the superiority of.

TROPICAL**DUNLOP TYRES.**

"I send you by parcels post a Dunlop Tyre which has had a record experience, having been in daily use on the back wheel of my bicycle since 1896, and done fully 15,000 'tropical' miles. The front tyre like Charley's Aunt, is still running and absolutely flawless, although fitted at the same time as the one now sent to you. I think this fact speaks volumes for the durability of your tyres."

MR. F. M. STAPLES,

Colombo, Ceylon.

In order to prevent fraud purchasers of these famous tyres should make a point of observing that the Company's trade mark is embossed on the outer cover and inner tube.

CRICKET AT ICAHAY.

STATE OF RIO DE JANEIRO VS. STATE OF SAO PAULO.

This important match, played at Icahay on the 23rd and 24th ult., was left drawn after a very interesting struggle. The Rio team differed in two respects from that originally selected, R. A. Tootal and W. S. Tate filling the places of N. W. Jackson and F. C. Quennell, who were unable to play. Rio won the toss and elected to bat first. The first innings was a heavy mist which hung over the ground. The bowling was entrusted to Tomlinson and Miller, who were opposed by E. and F. Morrissey, the former receiving the first over from Tomlinson. Off second ball he was missed at slip from a sharp change, but with only six runs scored the left handed batsman was bowled off his foot. Pierre filled the vacancy, and opened with well timed stroke through the slips; then, in quick succession, he hit three over pitched balls from Miller on to the cycle track, but when the second wicket had put on 57 runs the Rio stumper was cleverly caught at the wicket. R. Morrissey joined his brother and runs came steadily until with a drive to the right hands F. Morrissey sent up the century, at the same time completing his 50, but in the last over before lunch he was caught in the slips off a fine ball from Tracey, who had relieved Miller. The score standing at 111, R. Morrissey being out at 18.

On play being resumed the bowlers met with more success, both Gifford and Tate being caught from hot returns, and R. Morrissey, who had played in his best style, bowled by a fine ball which took the top of the leg stick. Slater quickly hit three fours, and the innings was brought to a close by a good catch at third man by M. de la Cruz. Miller bowled with excellent judgment, and the fielding throughout was keen and smart, Burgess at the wicket particularly distinguishing himself.

S. Paulo opened their first innings at 2:30 to the howling of Slater and Stutfield, the latter from the tennis courts end, and before a run had been scored the fast bowler yanked Burgess. With the total at 25 a good ball sent back Boyes, who had batted in a straight hat. Burgess in attempting to place a straight ball to leg was clean bowled; and the visitors captain, when apparently set, was caught at slip off the wicket-keeper's glove—4 for 51. Murray now joined Tomlinson and the first stand of the innings was made, the partnership yielding 49 before the former was bowled. Tomlinson continued to hit well and not till he had passed 50 did he give a chance. Included in his 69 were five fours. Tracey and Robinson then stayed together until stumps were drawn for the day.

Punctually at 10 o'clock on the second day, the over night not out continued the S. Paulo first innings in which six wickets had fallen for 161. Both batsmen settled down and, in spite of several bowling changes the score was steadily increased, 200 appearing on the board half an hour after the resumption of play. Tracey was the first to reach 50, but immediately afterwards was caught at cover from a mist-hit. King stayed to see Robinson complete his 50, after which both men lost their wickets through bad judgment in running, and Slater giving no trouble the innings was all over at 1:20.

The fielding of the home side was very disappointing, mistakes being very frequent, even by men who are usually considered safe, and the bowling soon lost all its sting. A minority of 61 Rio had half an hour's batting

before lunch and lost one wicket, but Pierce hit with such effect that during the 20 minutes he was at the wicket he added 38, the score at lunch time being 4 for one wicket. After the interval he continued to hit with even greater power, and after making four consecutive boundary hits he was unfortunate in pulling a full toss on the leg side into his wicket. With his dismaying wickets fell rapidly, and Rio had a desperately anxious time, with seven men out and only 40 runs on, when Tate came to R. Morrissey's assistance and by sound batting, combined with admirable judgment in hitting, the two men put a different complexion on the game. In just over the hour they put on 66 runs, when R. Morrissey, in attempting to pull a short ball which kept low lost his wicket. The outgoing batsman had played an invaluable innings without giving a chance. Both Tootal and Stutfield scored quickly, and when the Rio innings was declared closed, S. Paulo had less than two hours in which to get the 161 required to win. Too much praise cannot be given to Tate for his excellent not out innings, coming, as it did, at the most critical period of the match, and all were glad to see him at last show something of his true form.

With little to play for but a draw, S. Paulo started their second innings sending in Boyes and Lloyd, and though at first wickets fell quickly, Miller and Burgess, by careful cricket, placed their side beyond all possibility of defeat. During the match 742 runs were scored, creating a record for the Icahay ground.

POSTOFFICE ADDRESS:—Cidade 288.

RIO DE JANEIRO, JULY 9th, 1901.

OUR American exchanges and the arrivals here from the United States tell us that extraordinary interest is manifested there in the development of trade relations with South America. Possibly the Buffalo exposition is largely responsible for this, and it may be that the newspaper campaign against the imaginary designs of Germany in Brazil has led to increased inquiries in regard to trade possibilities. But the principal reason is unquestionably that of finding a market for surplus products, a quest that has been initiated over and over again during the last quarter of a century. The enormous production of manufactured goods in the United States at the present time is forcing producers to use greater efforts to increase their export trade, hence the interest shown there in commercial relations with this part of the world. Commercial museums are established, exhibitions are organized, consuls are besieged for information and circulars are sent out by the thousands. Everything is done, in fact, except the essential recourse of going after the trade. This has been the fatal mistake with American merchants and manufacturers. They have tried to promote trade from their offices at home, instead of going into consuming markets for it. They expect the consumer to come to them for their wares. After all these years of failure, they ought now to realize that a new policy must be adopted, and that they must go after the trade if they want it. They have advertised liberally at home and in the export periodicals which are rarely seen by consumers in these countries. Now let them advertise here, and see what the results will be. It is not the merchant to whom they must appeal, for he is concerned only with furnishing what his customers require. They must address themselves to the consumers and induce them to seek for their wares, when it will be found that the merchants will very quickly respond. The shopkeepers are not propagandists, and they do not care a straw whether the goods are antiquated or not, as long as their customers buy them. They are only concerned in selling and making a profit, and as a rule do not care to risk introducing goods of whose sale they are not certain. If now American manufacturers wish to secure a larger sale of their products in these countries, they must first encourage the establishment of American commercial houses at all principal distributing centres, and then they must advertise liberally, not at home, but among their customers. In other words, they must go after the trade, and they must be prepared to spend money and years of hard work in getting it. This is what the English have done, and it is what the Germans are now doing. The consumer will not go after goods when they are offered to him at his own door, and he will not feel the need of American novelties when imitations are offered to him at

perhaps lower prices. For the moment we need not worry about American banks, for they are not at all essential, nor need we wait until American steamship lines are established. Let us have the commercial houses first, and with capital enough to enable them to take rank among the best. A sample room somewhere up-stairs, on a back street, will not meet the requirement, nor will it do to sell goods only on orders. They must have their goods in the market, and they must be prepared to meet every demand. In short, they must come prepared to do business on the most favorable terms and to ask no favors. The South American is very much like the average man—he wants to feel that he is exercising a right of choice, and that he is getting the best terms. And like the average man he dislikes to have his choice limited, and he does not want any one dealer to have a special hold on him, however much he might like to enjoy such a privilege were he in that dealer's place. There is a deal of human nature in South America, and if the truth must be told, it instinctively resists the assumption of American politicians to any oversight and exclusive privileges on this continent. And this brings us to another condition of success which the American merchant and manufacturer must be prepared to recognize—which is that of surrendering every assumption of privilege or right under the Monroe doctrine. This assumption is distasteful to South Americans, and they are suspicious of it. The American trader must ask for no special favors; he must ignore political discussion on these points, and he must let no man have cause to feel that he is employing political agencies to secure a preponderance in trade. If he will do all this, we have the fullest confidence in his success.

THE situation in the Platine republics is anything but reassuring. In Buenos Aires there is a violent agitation against the debt amortization scheme of the government and in conflicts on the 3rd two men were killed and many injured. The government has declared martial law for six months and the military execution power, but even refuses to permit an investigation into them, and this in spite of a general popular disapproval and the almost unanimous protest of the press. Good government is impossible under such conditions, and bad government is stamped with the approval of all the constituted representatives of a discontented people who do not know how to remedy the evil.

WHATSOEVER may happen to the country, the responsibility will be a divided one and congress must bear its share. It will be remembered that the representatives of the people assumed the fullest responsibility for the acts of the tyrannical government of Floriano Peixoto by approving all that he and his subordinates had done. And now another congress, equally subservient, not only gives tacit approval to recent arbitrary acts of the executive power, but even refuses to permit an investigation into them, and this in spite of a general popular disapproval and the almost unanimous protest of the press. Good government is impossible under such conditions, and bad government is stamped with the approval of all the constituted representatives of a discontented people who do not know how to remedy the evil.

THE recent disturbances in Buenos Aires are evidently something more than a popular protest against the projected amortization of the foreign debt. As a rule, these questions are not understood by the people and excite but little interest among them. It is therefore very unlikely that such a question by itself would excite a protest which comes very near a revolution. In the application to the senate on the 5th for authorization to declare martial law for six months, it was stated that the disturbances were caused by anarchists, socialists and anti-clericals, but this is evidently an official misinterpretation. The root of the trouble lies deeper than all this. The prime cause of these agitations and disturbances is misgovernment, and this is as true in Argentina and Brazil as it is in Spain and Italy. The people are suffering wrongs which they can not define, and they are enduring miseries which they can not locate. Anything will therefore serve as a pretext for reaction, whether it is Gald's commonplace drama against the Jesuits, or a small increase of fares on a Rio tramway, or a complicated scheme for nullifying the Argentine debt. An excuse is wanted for a demonstration to show their discontent, and one can never foresee what it will be. It is to be feared that we are entering upon a period of widespread popular revolt, whose consequences no one can estimate.

THE resumption of cash interest payments in London on the 1st inst. has caused a deluge of congratulations both here and in London. We can understand the appreciation of the foreign creditor, for he wants his money, no matter how it is obtained, but we fail to appreciate the enthusiasm shown here. It is a good thing to meet these obligations and to redeem the promise given, and the government is to be congratulated on that, but it is not a good thing to ruin your property in doing so. The method employed is what we criticize.

As we feared, the declaration of President Campos Salles in his last message that the country is now fully prepared to return to the normal condition of specie payments, has created a false impression abroad. One of our most important foreign exchanges accepts the statement literally and congratulates the country on its recovery from the flood of irredeemable paper money which had inundated it. The truth is that the President referred only to a resumption of cash payments of interest on the Brazilian foreign debt, which had been suspended for the last three years. We are not yet even within sight of a resumption of specie payments, and the mass of depreciated, irredeemable currency in circulation is still large enough to make such a resumption impossible for some years to come.

RANCO DA REPUBLICA

The Banco da Republica has published a statement of its profit and loss under the present administration during the eight months from Nov. 1, 1900, to June 30, 1901. The last statement of this kind published by the former administration was that for the year 1899, the public being, consequently, still ignorant of the respective figures in relation to the period from Jan. 1 to Oct. 31, 1900.

It is interesting to compare the figures for the last eight months with those for the year 1899.

The total gross profits of the bank amounted in 1899 to 14,375,478\$917. In the last eight months, according to the statement just published, they were as follows:

On old account	6,791,197\$221
„ new „	1,918,461\$692

Total 8,709,658\$923

Of the total amount of gross profits in 1899 the sum of 3,027,475\$550 was derived from discounts. In the last eight months the profits from this source amounted to 421,438\$211 on old account and 184,297\$029 on new account, making a total of 605,735\$240. The large decrease is due in the present administration's reduction of the bank's discount business.

In 1899 the bank received on public funds interest in the amount of 3,432,495\$266. During the last eight months the interest thus received amounted to 522,650\$000 and the interest receivable in 553,233\$000, making a total of 1,075,883\$000. The amount received in 1899 in interest and dividends of debentures and shares was 2,142,107\$180. In the last eight months this amount received was 730,041\$850, and the amount receivable 265,468\$300, making a total of 1,004,510\$150. The large decrease in the income from these sources is due to the fact that the bank has disposed of the greater part of its most valuable interest-bearing assets.

The total amount received and receivable in interest and dividends in the last eight months was 3,425,095\$555, against 10,680,621\$560 in 1899.

In 1899 the bank had to pay to its creditors interest in the amount of 3,219,365\$011. This sum was, of course, greatly reduced by the forcible conversion of a large part of the bank's debt into *insuficiências* bearing only 3% interest. Consequently the amount of interest paid by the bank in the last eight months was only 1,501,696\$005, or less than half of the amount paid in 1899.

Administrative and legal expenses, which in 1899 amounted to 888,505\$240, amounted in the last eight months to 753,910\$538, and liquidation expenses to 150,793\$580 in that year and 179,366\$417 in the last eight months.

The losses in the last eight months amounted to 2,722,756\$074 on old account and to 43,751\$740 on new account, making a total of 2,766,507\$814.

The total expenses in the same period on old and new account, including interest and losses, were 6,928,516\$761 against 5,366,139\$738 in the whole of the year 1899.

The income derived by the bank during the eight months from discounts, commissions, interest on loans and other ordinary banking business was 4,670,684\$195. Consequently, if the income of the bank had been limited to its profit on the respective transactions, it would, in spite of the forcible reduction of interest on its indebtedness, have sustained in that period a net loss of 1,367,826\$569, instead of making a net profit of 2,000,297\$979, as it did in 1899, when it paid its creditors the interest to which they were legitimately entitled. And even its exchange business would not have saved it from loss, for its profits on this business amounted to only 904,225\$733, which, deducted from 1,367,826\$569, leaves a deficit of 463,600\$836.

How, then, did the bank save itself from loss? By taking advantage of the depreciation of the *insuficiências*, guaranteed by the national treasury, which, empowered by special legislation, it coerced its creditors to accept in lieu of money, or in other words by profiting by its own discredit and that of the government. Under these circumstances ought not congress to repeal the law which it precipitately voted last year and permit the bank to go into judicial or extra-judicial liquidation?

In another issue of our journal we shall make a brief analysis of the bank's last balance-sheet.

LEGISLATIVE NOTES

—On the 27th ult. the senate rejected the bill making a special appropriation of 559,131-\$23 for legalizing the payment of that sum by the government through the Banco da Republica to the Companhia de Saneamento do Rio de Janeiro.

—The resolution of the election committee to send to Pará for the original books showing that Deputy-elect Hosiunhi had received 1,500 votes in one district, against 5 for his opponent, has apparently frightened the former, for he has waived his claim to the 1,500 votes and allowed his opponent to count the 5. The committee, however, still insists on the production of the books.

—In the senate on the 26th ult. Senator Antonio Azeredo said that he had learned of a trustworthy source that at 11 o'clock p. m. on the 18th ult. during the disturbances 3,000 cartridges belonging to a battalion of regulars had been furnished by the war department to the commander of national guards. He moved to ask for official information on the subject. The motion was opposed by Senator Vicente Machado and after a lively debate rejected by a vote of 18 to 16.

—It is evidently becoming more and more difficult to postpone the long expected rupture in congress. On Saturday, apropos of the bill for the reorganization of the courts of the Federal District, whose passage the government is accused of seeking to force without discussion, the proceedings in the chamber of deputies became exceedingly stormy. The minister of justice and the conductor of the police in the recent disturbances were denounced in the strongest terms. Exalted deputies shouted incoherently and furiously thumped their desks. A hostile group, gestulating threateningly, surrounded the government leader, Deputy Dino Basso; but the chair suspended the sitting and the leader was rescued from his uncomfortable situation. At the end of 15 minutes proceedings were resumed, and Deputy Esmeralino Bandeira, of the Pernambuco delegation, who openly accused the minister of justice of being actuated by the desire to find places for his party dependants, concluded his speech amidst loud cheers from the galleries.

COFFEE NOTES

—The long spell of fine dry weather which we have lately enjoyed, has been highly advantageous to the coffee planter, for it has been just what he needed for drying coffee. The season has been a favorable one, and the crop this year will not only be unprecedentedly large, but will be of exceptional good quality.

—Secretary Wilson of the United States department of agriculture says that the American people will soon be commercially independent, as they will produce everything they require. He even expects a total cessation of imports of coffee and rubber from Brazil, because the Philippines and West Indies will produce all the United States can require.

—Perhaps the planter will never have a better opportunity than the present one for making a new life for him in the method of marketing his coffee. The quality this year will be exceptionally good, and it is just the time for him to send it to market at its best. Reducing all coffees to a few common grades, and destroying all individuality as to quality, is certainly detrimental to the industry.

PROVINCIAL NOTES

—Cases of yellow fever are reported from Pernambuco.

—The Austrian minister has been making an extended visit in the state of Rio Grande do Sul.

—The students of Porto Alegre are issuing a manifesto proclaiming Julio de Castilhos a candidate for the presidency of the republic.

—The municipal police force of Livramento, Rio Grande do Sul, reported to have joined the command of João Francisco at Cury.

—A force of 40 policemen has been sent to Jaborahai, S. Paulo, to hunt "ladrões," as the new type of outlaw is called in that state.

—At Lamyra, Minas Geraes, the minimum temperature in June was 40 Cent. (32.2° Fahr.), and the maximum 120 Cent. (62.6° Fahr.).

—Some trifling irregularities have recently been discovered in some of the public departments of Sergipe. One instance is mentioned where a man was employed to destroy a nest of ants in a public office. His charge was \$08, but the receipt on file said \$005.

—A Manaus telegram says that there is continued public indignation against the merchant José Lopes de Souza, who has poisoned three wives. We should think so. The man has deprived him of the title of "venerable," and have expelled him.

—The trial of the Italian Ugaretti, who killed Col. Diogo Salles on a São Paulo plantation last year, was begun on the 4th inst. Ugaretti confesses that he committed the crime, and alleged that it was in defence of his sister's honor. He was condemned to 24 years imprisonment.

An action brought against the state of Amazonas by Lopo Zetto for \$800,000 damages on account of the suspension of his contract for a general survey of that state, has been decided in favor of the state.

On the 25th ult., at S. Sebastião de Estrella, Rio de Janeiro, two friends named Alípio Amante and Heitor Cardoso, assaulted a poor Italian girl, 14 years of age, but were unable to accomplish their purpose because of her resistance. They then killed her with knives, after which Cardoso outraged her dead body. Will anybody say that lynchings would be wrong for such a crime?

There was trouble again in Campos last week between the municipality and the Campos Syndicate because of the non-payment of the company's bills. On the 1st inst. the latter suspended the water and drainage service on this account, and on the 3rd the *colectoria* paid the company 17,000\$. This, however, did not seem to be enough, for a telegram of that date says that the service continued suspended, and that the company's manager had tried to assault the editor of a local paper because of his criticisms.

A *Serãozinho* correspondent of the *Pádua*, of Aracaju, S. Paulo, relates that two rogues of that place recently incurred the hostility of an influential planter, who thereupon put 2,000\$ in the hands of the police and exacted the summary dispatch of the fellows. An outside detachment of 12 men was called in and the rogues were arrested and imprisoned. This did not satisfy the planter, who exacted the ears of the men. The police then shot them in cold blood, cut off their ears, and then carried them to the planter.

SPORTS AT MORRO VELHO.

The Athletic Club and Sunday School held their annual sports on St. John's day. The combined events attracted a vast concourse of people to the club's recreation ground, and the keenest interest was shown in the various competitions. The most noteworthy feature was the winning of both bicycle events by Mr. G. W. Mayo. In the tug of war the surface team, despite the valiant assistance rendered by Mr. Wheatley, had to yield to the superior tugging powers of the mine team.

The Morro Velho brass band justly merited the heartiest thanks and appreciation of those who were privileged to be entertained by their choice selections throughout the day.

Mr. Clemente and the Sunday School staff are to be congratulated for their contribution to the day's enjoyment, and thanks are especially due to the ladies for providing the all-fresco lunch and tea in the evening. Mr. Wheatley very kindly undertook the carrying of the children's prizes and with equally good taste expressed the pleasure it gave him to be again with the Morro Velho people, which remark elicited three hearty cheers. Mr. C. Altherton, with his side shows and refreshment bar, afforded endless enjoyment to all who came within the area of his innumerable attractions. The day's festivities wound up with an impromptu dance illuminated by the glowing rays of a huge fire.

The events and results were as follows:

EVENTS.

Throwing the Cricket Ball—J. Drew, 95 yds. 9 in.
1 Mile Bicycle Race—1st G. Mayo, 2nd J. Watts.
Putting the Shot—1st J. Holman, 2nd A. Grenfell.
1 Lap Bicycle Slow Race—1st G. Mayo, 2nd G. Watts.
100 yards—1st J. Drew, 2nd W. Grenfell.
High Jump—1st J. Holman, 2nd A. Grenfell.

RAILROAD NOTES

The União Sorocabana line has acceded to the request of the government and has accepted the reduced freight charges on coffee adopted by the Paulista company.

It is stated that the S. Christovão tramway company claims 3,500,000\$ as compensation for the damages sustained during the recent disturbances. The company has already filed its protest.

The general meeting of shareholders of the Paulista company was held on the 30th ult., when the report and accounts for the past year were adopted and directors for the ensuing year elected. The presidency of the company continues with Dr. Antonio Prado.

After a long discussion the S. Paulo municipal council adopted a resolution on the 3rd inst. authorizing the unification of the Light and Power and the Viçosa Paulista tramway companies of that city. It will be remembered that the latter became bankrupt a long time ago and its property was bought by the former in judicial sale.

The March traffic receipts of the Central Bahia railway were 107,258\$70 against 134,631\$80 last year, showing a decrease of 27,373\$60. The exchange rate was 11 9/16 this year against 7 31/32 last, the sterling equivalent of the currency receipts being £5,173 this year and £4,470 last year, a increase of £703. Since 1st January last the receipts amounted to £11,475 against £14,256 last year, showing a decrease of £2,781.

The court of appeals has decided against the appeal of the União Sorocabana company in the suit of the London and Brazilian Bank for the judicial collection of overdue interest and drawings due foreign debenture-holders. This is the last recourse. The bank has a judicial execution upon the revenues and property of the company.

The April traffic returns of the São Paulo railway (139 kilometres), compared with the same month of last year, give the following results:

	1901	1900
Inward freights, tons,	51,439	32,517
do since 1st Jan.	198,133	161,924
Outward freights, "	23,719	8,110
do since 1st Jan. "	123,105	51,453
Passengers carried,	84,576	91,432
do since 1st Jan.	335,572	357,578
Inter-station traffic, tons,	17,737	12,427

The estimated traffic receipts of the Leopoldina railway for the week ending 11th May were as follows, compared with the corresponding week of last year:

	last year	223,702\$
Receipts in currency,	211,665\$	
Decrease for week,	20,935\$	
Equivalent in gold this year (12 1/2),	£ 11,884	
do last year (8 13/32),	£ 8,570	
Increase in sterling for week,	£ 3,314	
Total receipts since January 1,	£ 208,411	
do last year £ 180,030		
Increase since January 1,	£ 28,381	

The estimated traffic receipts of the Leopoldina railway for the week ending 18th May were as follows, compared with the corresponding week of last year:

	last year	221,559\$
Receipts in currency,	211,529\$	
Decrease for week,	270\$	
Equivalent in gold this year (12 1/2),	£ 11,510	
do last year (8 9/16),	£ 7,914	
Increase in sterling for week,	£ 3,596	
Total receipts since January 1,	£ 219,951	
do last year £ 187,964		
Increase since January 1,	£ 31,987	

Decree No. 4,058, of the 25th ult., approves of the provisional lease of the Bahia and S. Francisco railway and Trilão branch, recently purchased by the government from an English company. The lessees are the *gineiros* Jeronymo Teixeira de Alencar Lima and Amadeu Honório de Carvalho, who bind themselves to pay the government in half-yearly instalments 5% of the gross receipts of the roads. The government reserves the right to cancel the lease at pleasure, giving preference, however, to the present lessees in the event of its deciding on a definite lease.

SHIPPING NOTES

The German cruiser "Vineta" arrived in port on the 1st inst.

The United States cruiser "Chicago" left this port on the afternoon of the 7th inst., homeward bound.

The announcement in the *Journal* that there would be a reception on board the U. S. cruiser "Chicago" on the 4th was a mistake, as the officers were to go to Petropolis to be entertained by the minister.

The freight agents of the Lamport & Holt line in New York have advised shippers that owing to the labor involved in preparing manifests under the new Brazilian consular regulations, two clear days are necessary between the closing of the cargo and the sailing of the steamer.

LOCAL NOTES

A long spell of fine dry weather came to an end on Tuesday last, preceded by a couple of days of untimely summer heat.

A New York telegram of the 4th says that 362 deaths from sunstroke had occurred in that city since the preceding Sunday.

For the first time in some years the *Journal do Commercio* noticed the anniversary of American independence on the 4th inst.

The secretary of the Rio Cricket and Athletic Association requests us to state that entries for the Lawn Tennis Tournament will close on the 15th inst.

It is stated in the morning papers that Admiral Castilho de Mello will today serve notice to the President of proceedings against him for illegal imprisonment in March last.

A Washington telegram of the 4th says that Peru and Bolivia have again protested against the resolution to restrict discussions on arbitration at the next Pan-American congress.

The *Correio da Manhã* denounces a great scandal in the business of supplying this city with fresh beef. It seems to us that there has been nothing else but scandal in this iniquitous monopoly.

The masked lottery on the wooded hill in Fort S. João, at the entrance to this port, has been finished and will soon be "inaugurated." It will be known as the Midlet battery, in honor of the minister of war.

On the 26th ult. masses were said at the Candelária church for the persons killed by the police during the recent disturbances. The attendance was enormous. We have seen nothing like it since the exequies of Saldanha da Gama in 1895. The church was crowded with people, and even the street in front was full. It is looked upon as a moral protest against our present police administration.

The masses said on the 27th ult. at the Candelária church for Admiral Saldanha da Gama and his comrades, killed in the battle of Campo Ozeiro on June 24, 1895, were very largely attended. Masses were also said at Bahia and S. Paulo.

It is stated that the favored idea now is, not to reconstruct the Gloria market for the use of the Escola de Belles Artes, but to erect a new edifice for that purpose on the Cattedra, corner of Rua Silveira Martins. This is a much better scheme, in our opinion.

The federal solicitor, Dr. Borges Monteiro, has preferred a criminal complaint in the civil and criminal court against Affonso João Augusto da Costa, of the police brigade, for wounding his nephew with a revolver shot on one of the days of the recent disturbances.

The Club Internacional, of Icaray, gave one of their enjoyable concert-soirees on Saturday evening last, for which an invitation was courteously sent to this office. We sincerely regret our inability to attend, for these entertainments are greatly appreciated by the residents of Icaray.

Unfortunately the police are still giving much cause for complaint on account of their arbitrary arrests and brutal treatment. It is a pity there is no better protection for the people, for government of this character, no matter what it is called, tends to degrade and demoralize the masses and closes all avenues to progress.

The officers of the Brazilian ironclad "Florianópolis" were entertained with a banquet by London business men on the 30th ult. Mr. Reginald Johnston presided, and the Brazilian minister, Dr. Joaquim Nabuco, and Dr. José Carlos Rodrigues, were present and made speeches. The latter took special pains to declare that the funding loan scheme was initiated by the London and River Plate Bank.

We regret to say that continued ill health has again interfered with our work, compelling us to omit last week's issue. We are hoping to arrange matters so that the paper can be published regularly and at the same time give us an opportunity for rest and treatment, but up to the present moment we have been unable to do this. Until we can make some such arrangement we trust our subscribers will be lenient with our shortcomings.

We are informed that the Larangeiras Club has resolved to make the members of the Rio Cricket and Athletic Association and Paysandú Cricket Club temporary honorary members of the Club during the approaching visit of a cricket eleven from Buenos Aires. This will afford additional opportunities for the entertainment of our visitors and we will, therefore, contribute largely to their enjoyment. The committee of the Larangeiras Club deserves every praise for this thoughtful courtesy.

The telegrams from New York report a great loss of life in that city during the first days of the month on account of the heat. It is said that the people were passing the night in the streets and on the roofs, and that thousands were going into the country. It would perhaps be wise to provide more open spaces in the city, where trees and grass might help to modify the heat. It is worthy of note that at the same time the cable reports intense heat at Buenos Aires, and we were here in Rio de Janeiro.

The appearance a few days ago of a suspected case of bubonic pest in one of the unsanitary old buildings in Rua D. Manoel, has given the director-general of public health an opportunity to repeat his complaints against the public and many physicians of systematic opposition to sanitary precautions. Dr. Nuno de Andrade should know that the opposition is rather against the puerile and arbitrary measures so frequently enforced. Experienced physicians do not like to have their opinions overruled by young practitioners, nor do the people like to be treated brutally.

DEATH.

CARSON.—On 30th June, 1901, at 11.11 Rua Senador Vergueiro, ROBERT PATRICK CARSON, aged 30 years, son of the late William D. Carson, of this city, of congestion of the lungs.

OBITUARY.

On 30th ult., of congestion of the lungs,

ROBERT PATRICK CARSON.

That is the last of one of the most cheery, kindly, hearty young Englishmen who ever lived in Rio de Janeiro. It would not be too much to call "well loved," for he was one of those peculiarly constituted men who make only friends; every one who knew him, young and old alike, liked him, and whenever he entered the home of one of his numerous friends, the little children would leave their play to shout "where's Bob?" He was the same on the cricket field and in ladies' society, and it is safe to say that he goes to his grave without having made a single enemy.

He was born in Rio de Janeiro, but was always an Englishman to the backbone. Excepting the few years devoted to his education in England, he always lived among us. His death will make a great void here, and will leave many sore hearts.

A preliminary funeral service was held at No. 11, Rua Senador Vergueiro, on the day of his death. It was most touching to see the respect and sorrow of many of the ladies present, most of whom kissed his forehead before the coffin was closed.

The saddest circumstance of all attending this untimely death is that—He was the only son of his mother, and she was a widow.

THE CINDERELLA.

The sixth Cinderella given by the Larangeiras Club on Saturday evening last was all that could be desired, and was as well attended as any yet given. The fact that it was again past midnight before the company dispersed shows that it was well enjoyed by those present.

Among those present we may note Mr., Mrs. and Miss Robinson, Mr., Mrs. and Miss Anderson, Mr., Mrs. and Miss Cazaly, Mr., Mrs. and Miss Hume, Mr., Mrs. and the Misses (2) Gordon Pullen, Mr. and Mrs. Sfezzo, Mr. and Mrs. Thom, Mr. and Mrs. Simmons, the Misses (2) Tatam, Miss Coggin, Miss Lefebvre, Miss Rouchon, Messrs. Santos, Nathan, Wheatley, Reeves, Thom, Jackson, Altee, Wright, Whidborne, Lynch, Veigall, Mill, Robinson (2), Shaw (2), Hargreaves (2), Tatam, Cazaly, Pullen, and Rouchon.

PUBLICATIONS RECEIVED.

Almanak Laemmert—1901-1902. The present issue of this standard directory of the city of Rio de Janeiro is in many respects an advance on its predecessors, not because of any change in its preparation, but because of the additional information given. This new material includes the customs tariff, bases for the Central railway tariffs, the federal budget law for 1901, and the municipal budget for 1901, together with the information usually given from year to year. This adds largely to the value of the book and renders it indispensable in every office. The printing, binding and indexing are all excellent and help materially to make the directory useful. The publishers—the Companhia Typographica do Brazil—are entitled to the warmest praise for the enterprise shown in the preparation and manufacture of the book.

BUSINESS NOTES

The gold cheques issued by the various banks of this city for the payment of gold tickets in June amounted to a total of 1,193,155\$326.

The deposits in the government savings bank (*caixa economica*) at Manóas amounted last year to 1,728,294\$300 and the withdrawals to 2,335,373\$500.

The district judge at Manóas has dismissed the suit brought against the governor of Amazonas by the federal district attorney for issuing appliers to serve as currency.

The investigation into the disappearance of registered letters in the post-office, covering some serious losses, is continuing. As we stated in our last issue, the name of an ex-*amannensis*, Jeronymo Luiz da Costa Couto, is compromised.

Mr. Cazaly, superintendent of the Royal Mail Steam Packet Co., has complained to the minister of finance that the customhouse requires a bond for merchandise not accompanied by a quadruplicate consular invoice.

Police authorities on Governador island are requiring market gardeners to take out a certificate when they make shipments of vegetables. For this certificate, no matter what quantity of produce is shipped, they collect 2\$500. This extortion is exciting complaint.

At a general meeting of shareholders on the 27th ult. it was decided to end up the business of the Banco de Crédito Real do Brazil. The reason alleged for taking this step is that in the present state of affairs there is no longer any profit or security in making mortgage loans on agricultural property.

After eighteen months of judicial investigation the courts have absolved Dr. Rodolpho Henrique Baptista on the charge of responsibility for the defalcations discovered in December 1899 in the administration of the S. Christovão tramway. The particulars of the case will be found in the *Journal do Commercio* of to-day.

Many of the laborers on the plantations in S. Paulo are Italians, who, not having received their wages, have complained. It is said to their counsel. In view of the complaints made by these laborers, the chief of police, it is stated, has promised the consular telegraph to the local authorities instructing them to seek to promote, without resorting to co-ercive measures, an agreement between the planters and laborers.

Last year the output of coal at the mines of the Companhia de Estrada de Ferro e Minas de S. Jeronymo in the state of Rio Grande do Sul was 15,800,220 kilos against 15,816,768 kilos in 1899. It would have been larger, and there had not been a decrease in the demand in consequence of the critical condition of the manufacturing and transportation industries in that state. The board of directors reports a profit of 115,934\$620 on sales against 209,164\$278 in the previous year.

FINANCIAL NOTES

The state government of Minas Geraes is said to have made arrangements for the payment of interest now due on its foreign debt. The amount of this interest is 1,300,000 francs.

The *Journal do Commercio* is jubilant over the resumption of the payment of interest on the foreign debt. The *Journal do Brasil* and *Paz* say that it is yet too early to rejoice, since in view of the wretched financial condition of the country it may possibly be necessary to suspend payments again. And it must be added that for this wretched financial con-

THE ANGLO-BRAZILIAN SCHOOL

VILLA MARIANNA

S. PAULO

The school will open in the new premises at Villa Marianne on 1st July next. All communications before that date should be directed to the present address given below.
The grounds, at the new site, cover an area exceeding 20,000 square metres, and are situated in the healthiest and highest suburb of S. Paulo. Steam trains pass the door every half hour, which are shortly to be substituted by the electric cars.
The boys are encouraged to play cricket and football and other healthy games, while the quality of the food, including milk, animal partridge, etc., will be unexcelled. The boarders are under the special care of an English lady whose family resides in the school.
The course of study adopted is such as to prepare boys for the English universities and for commercial life at home or in Brazil, the principal being assisted in the teaching by Mr. A. C. Slater, B. Sc., and other masters, English, German and Brazilian.
The new prospectus is now ready and will be forwarded at once to those who apply for it.

CHARLES W. ARMSTRONG.

Principal.

Hotels.

Hotel dos Estrangeiros

PRAÇA JOSE D'ALENGAR No. 1

(Cattete)

Telephone No. 498

This hotel, which has been completely restored, is situated in the best part of the city, receiving air and light from all four sides, close to the cleanest beach of the city, surrounded by a large garden; has large comfortable rooms newly and well furnished, good shower and warm baths, disinfectants in the water-closets, drinking water filtered by the Paster system, good table service, and is, therefore, to be considered the first hotel of this capital.

Possesses also a sumptuous saloon and splendid table service for banquets.

Its restaurant and service cannot be excelled.

FREITAS HOTEL

120, Rua do Riachuelo

Mr. J. F. FREITAS, proprietor of the old and well known Freitas Hotel, desires to advise his friends and former customers that he has reopened that hotel at No. 120 RUA DO RIACHUELO in a large and most attractive edifice acquired for this special purpose.

The new establishment is situated in one of the most attractive and healthy localities in the city, on a broad and quiet street, with tram for all central points of the city passing the door. It has a large and beautiful laid out pleasure garden, particularly suitable for ladies and children, and well-mounted bath-rooms provided with hot and cold water.

The Hotel is specially adapted for families, for whose comfort and convenience nothing will be found lacking. It contains a large drawing-room, and its dining-room opens on verandahs overlooking the garden.

Special attention will be given to orders by mail and telegraph.

THE RIO NEWS.

This paper is now in its 10th year having originally been published as *The South American Mail and The British and American Mail*. It assumed its present title at the beginning of April, 1899, when it was published three times a month. From a tri-monthly it has been changed to a weekly publication, and from four pages it has been increased to twelve.

As an advertising medium THE NEWS occupies an exceptionally advantageous position. It circulates widely throughout Brazil, and also in Europe and the United States. Its subscribers are principally business men interested in Brazilian trade, industries, and investments. No other periodical, even with much larger circulation, can offer better inducements to advertisers who seek the attention of these classes.

All communications should be addressed to the Editor and Publisher, Caixa do Correio, 258, Rio de Janeiro.
